Subject: Re: What is ORD's schedule for the science review that is supposed to inform the rule?

April meeting dates not yet announced by sab staff. However, sab ad hoc panel members have been notified.

General completion date of fall 2014 mentioned publicly.

Final connectivity science synthesis report must be released before agency can release final rule. That has also been said in public

Lek:

Concerning ORD's draft connectivity Report: We anticipate completing the final version of this report in the Fall of 2014.

Of course, that depends upon feedback from the SAB. We anticipate receiving the SAB Panel peer review report sometime the week of March 17. There will be two public teleconferences to follow up on the release of the draft peer review report. Those public teleconferences are scheduled for April 7 and April 14. We are hoping to see the final SAB peer review report in June 2014.
